Icom Showcases New M510 at IBEX 2021

KIRKLAND, Wash. (September 2021) – At this year’s IBEX 2021, Icom will be showcasing the newest VHF marine transceiver, the M510. With the M510 onboard, conveniently command and control wirelessly, all from your smart device. Icom will be located at **3-1651** in NMEA’s Connected Electronics Pavilion at the Tampa Convention Center in Tampa, FL, from September 28-30th. See all the latest marine technologies, tools, and materials in one location.

Icom’s newest fixed-mount marine VHF transceiver is the M510 and it was designed to bring communication to life. The 3.5-inch LCD color display provides a wide viewing angle for supreme readability, even in low light with night mode. Front and back connection ports allow an additional wired station using a COMMANDMIC™.

This radio is a powerhouse tough enough for the commercial market yet refined for the recreational boater. Receive AIS signals (AIS version only) to see surrounding vessel traffic in real-time and directly make individual DSC calls to selected targets. At almost half the depth of the M506, installation options are wide open. With the optional CT-M500 interface box, gain NMEA2000™ connectivity and the two-way hailer/foghorn function. The CT-M500 connects to your M510 wirelessly, keeping installation flexible for up to three smart devices through the RS-M500 iOS®/Android™ app. Other features include built-in GPS, loud and clear audio, Simplified Navigation Function, Active Noise Cancelling, IP68 waterproof rating, Icom’s own AquaQuake™, and much more.

AIR. LAND. SEA.

IBEX 2021 is an opportunity to gain firsthand knowledge that's essential to making informed decisions, see products up close and in action and hear perspectives from people who understand the business of boatbuilding. On September 27th there will be pre-show events and education followed by three days of exhibits, networking, and education from September 28th-30th.

This tech-filled VHF fixed mount is filled with modern features to help you stay in contact and navigate the open seas with ease. Icom is known worldwide for manufacturing the most impressive marine radios – handheld or fixed mount. And in a world where technology is ever-evolving, Icom continues to stand the test of time with leading-edge forward-thinking. Because of this, boaters the world over choose Icom for their legendary durability, quality, dependability, and ease of use.
